Abstract: *In late 19th – the beginning of the 20th century the development of the Romanian Army certainly occupied the attention of the Bulgarian military periodicals. A good proof of this is the articles published in the “Military Journal” – without doubt the most important issue amongst the Bulgarian military periodicals. Tracing the Military Journal’s articles with respect to the Romanian Army in the period 1888 – 1912 can serve as an indication of what military issues interested the Bulgarian military circles decades ago.*
