Abstract: *In the third decade of the 21st century, we are witnessing the decline of the unipolar world. On the international stage, there is one great power in decline that is trying to regain its position and another – on the rise that is trying to take the place of the world hegemon. Could the Theory of offensive realism provide an answer to what would follow?*

Keywords: *international relations; offensive realism; John Mearsheimer; unipolar model; multipolar model*
